Research Analysis

HB 2334 establishes the Maternal Mortality Review Committee for the purpose of developing and coordinating a system of health services to decrease maternal mortality. Duties of the committee include reviewing cases of pregnancy-related maternal deaths of women in Oklahoma; reviewing the probable cause of death and identifying contributing factors; identifying gaps in available health care services, transportation and financial resources. The measure directs the State Department of Health to provide staff support for the committee and empowers the Commissioner of Health to subpoena, if necessary, the production of any records that contain evidence that the committee believes to be relevant.
