Research Analysis

Engrossed HB 2666 establishes certain requirements and criteria for selection of a construction manager by a political subdivision of the state. The measure also requires the State Facilities Director or the construction manager to make subcontracting and supply opportunities known.

Senate Amendments to HB 2666 requires a political subdivision of the state to select a construction manager based upon professional qualifications and technical experience, and to negotiate a contract with the highest qualified construction manager if a fair and reasonable fee can be negotiated. Certain additional requirements are imposed on projects where the delivery method is construction management at-risk.
