

BILL SUMMARY
1st Session of the 57th Legislature

Bill No.:	SB 92
Version:	CS
Request Number:	
Author:	Rep. Osburn
Date:	4/22/2019
Impact:	No Impact

Research Analysis

The committee substitute to SB92 requires public schools to be evaluated to determine whether they meet state accreditation standards and authorizes the State Board of Education to determine the schedule by which the schools are evaluated.

If a school district receives no deficiencies in their evaluation for two consecutive years, the Board shall allow them to be evaluated for accreditation less than annually.

The committee substitute requires schools to be evaluated annually to determine if they meet standards tied to federal funding, health and safety standards, and the certification requirements for teachers, principals and superintendents. Schools shall also be evaluated annually to determine if they meet school board governance requirements, and any other requirements under state and federal law.

The measure requires schools that receive a deficiency on their accreditation report to be evaluated annually until they have received no deficiencies for two consecutive years, at which point they will return to being evaluated pursuant to the calendar determined by the State Board of Education.

The measure further requires the State Department of Education to investigate a complaint of failure to comply with accreditation standards within thirty (30) days of receiving the complaint. If the Department determines that a school has failed to comply with the accreditation standards the Department shall report the recommended warning, probation or nonaccredited accreditation status to the State Board of Education within ninety (90) days.
