

Bill Summary
1st Session of the 57th Legislature

Bill No.:	SB 802
Version:	INT
Request No.:	470
Author:	Sen. Bice
Date:	01/30/2019

Bill Analysis

SB 802 creates the Electrical Vehicle Charging Station Inspection Act. The measure authorizes the Oklahoma Department of Labor to inspect and permit public electrical vehicle (EV) charging stations. The measure defines separate categories of EV charging stations. The Department is directed to promulgate rules governing the municipal permitting process, fees for inspections not to exceed \$100.00, required documentation, and other information deemed necessary by the Department. Every EV station shall be inspected upon installation and once per year. Approved EV stations must also receive an installation permit from the Department.
