1	ENGROSSED HOUSE				
2	BILL NO. 1773 By: Conley, Sterling, Moore, Waldron, Mize, Roe and Davis of the House				
3					
4	and				
5	Garvin of the Senate				
6					
7					
8	An Act relating to schools; amending 70 O.S. 2011, Section 6-185, as last amended by Section 1, Chapter 234, O.S.L. 2019 (70 O.S. Supp. 2020, Section 6-185), which relates to the Oklahoma Teacher Preparation				
9					
10	Act; requiring study of multi-tiered systems of support in preservice teacher preparation program;				
11	providing for training using evidenced-based and data-based procedures; including training for				
12	structured literacy and mathematics; adding training for applying behavioral sciences to classroom				
13	management; providing for training related to impacts of trauma and trauma-informed instruction; and				
14	providing an effective date.				
15					
16					
17	BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:				
18	SECTION 1. AMENDATORY 70 O.S. 2011, Section 6-185, as				
19	last amended by Section 1, Chapter 234, O.S.L. 2019 (70 O.S. Supp.				
20	2020, Section 6-185), is amended to read as follows:				
21	Section 6-185. A. The following competencies and methods shall				
22	be incorporated into the programs approved by the Commission for				
23	Educational Quality and Accountability for the competency-based				
24					

teacher preparation system provided for in the Oklahoma Teacher 1 2 Preparation Act: The teacher preparation system shall include, but not be 3 1. limited to, the following competencies: 4 5 a. excellence in the arts and sciences, b. an in-depth knowledge of the subject matter to be 6 7 taught, the ability to identify and cultivate talent and 8 с. 9 potential in students, 10 d. an understanding of child and human development, 11 teaching skills developed through a variety of e. 12 learning experiences, 13 f. the ability to interact effectively with all students, 14 skills necessary for working with parents, guardians q. 15 and custodians of students in the education process, 16 skills necessary to involve the community in h. 17 education, 18 i. skills to foster teamwork within and among schools, 19 j. for administrators, skills necessary to be an 20 effective leader of a school or school district, and 21 k. skills in effective classroom management and student 22 discipline; 23 24

Page 2

2. The preservice program shall include the following methods
 to achieve the competencies listed in paragraph 1 of this
 3 subsection:

- a. require teacher candidates to study arts and sciences
 at the undergraduate level,
- b. require secondary and elementary/secondary teacher
 candidates to have undergraduate majors, or their
 equivalents, in a subject area, and require teacher
 candidates in early childhood, elementary, and special
 education to have subject area concentrations which
 allow qualification as a generalist,
- 12 c. require teacher candidates in early childhood,

13 elementary, secondary, and special education to study 14 the philosophy, overarching framework, components, and 15 implementation of multi-tiered systems of support 16 (MTSS) designed to address the core academic and 17 nonacademic needs of all students. The program shall 18 provide for training that utilizes evidence-based 19 assessment, intervention, and data-based decision-20 making procedures within a tiered system of support to 21 identify students at risk for negative academic or 22 nonacademic outcomes. This training shall include, 23 but not be limited to, the following areas as 24 appropriate by grade band:

2 phonological awareness, phonemic awareness, 3 decoding letters into sound and its relationship 4 to printed material, rapid-naming skills, oral 5 fluency, vocabulary and comprehension, 6 (2) an evidence-based approach to mathematics 7 instruction that includes understanding key 8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 pelaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. require teacher candidates to study the individuality	1		(1)	a structured literacy approach that includes
4 to printed material, rapid-naming skills, oral 5 fluency, vocabulary and comprehension, 6 (2) an evidence-based approach to mathematics 7 instruction that includes understanding key 8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	2			phonological awareness, phonemic awareness,
5 fluency, vocabulary and comprehension, 6 (2) an evidence-based approach to mathematics 7 instruction that includes understanding key 8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	3			decoding letters into sound and its relationship
6 (2) an evidence-based approach to mathematics 7 instruction that includes understanding key 8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. require teacher candidates to study the individuality 23 of students, the capacity of students to learn and the	4			to printed material, rapid-naming skills, oral
7 instruction that includes understanding key 8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) 14 the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	5			fluency, vocabulary and comprehension,
8 mathematical concepts, fluency of basic facts, 9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	6		(2)	an evidence-based approach to mathematics
9 fluent and flexible use of standard and 10 nonstandard algorithms, and application of these 11 mathematical principles to solving problems, 12 (3) the application of the behavioral sciences to 13 classroom management that includes instruction on 14 prevention of problematic behaviors, teaching 15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	7			instruction that includes understanding key
10nonstandard algorithms, and application of these11mathematical principles to solving problems,12(3) the application of the behavioral sciences to13classroom management that includes instruction on14prevention of problematic behaviors, teaching15appropriate behaviors, reinforcing appropriate16behaviors, responding to problematic behaviors,17and evaluating the effect of classroom management18on student outcomes, and19(4) the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d. require teacher candidates to study the individuality23of students, the capacity of students to learn and the	8			mathematical concepts, fluency of basic facts,
11mathematical principles to solving problems,12(3) the application of the behavioral sciences to13classroom management that includes instruction on14prevention of problematic behaviors, teaching15appropriate behaviors, reinforcing appropriate16behaviors, responding to problematic behaviors,17and evaluating the effect of classroom management18on student outcomes, and19(4)19the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d.23of students, the capacity of students to learn and the	9			fluent and flexible use of standard and
12(3)the application of the behavioral sciences to13classroom management that includes instruction on14prevention of problematic behaviors, teaching15appropriate behaviors, reinforcing appropriate16behaviors, responding to problematic behaviors,17and evaluating the effect of classroom management18on student outcomes, and19(4)(4)the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d.23of students, the capacity of students to learn and the	10			nonstandard algorithms, and application of these
13classroom management that includes instruction on14prevention of problematic behaviors, teaching15appropriate behaviors, reinforcing appropriate16behaviors, responding to problematic behaviors,17and evaluating the effect of classroom management18on student outcomes, and19(4)the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d.require teacher candidates to study the individuality23of students, the capacity of students to learn and the	11			mathematical principles to solving problems,
14prevention of problematic behaviors, teaching15appropriate behaviors, reinforcing appropriate16behaviors, responding to problematic behaviors,17and evaluating the effect of classroom management18on student outcomes, and19(4)(4)the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d.crequire teacher candidates to study the individuality23of students, the capacity of students to learn and the	12		(3)	the application of the behavioral sciences to
15 appropriate behaviors, reinforcing appropriate 16 behaviors, responding to problematic behaviors, 17 and evaluating the effect of classroom management 18 on student outcomes, and 19 (4) 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	13			classroom management that includes instruction on
16behaviors, responding to problematic behaviors, and evaluating the effect of classroom management17and evaluating the effect of classroom management18on student outcomes, and19(4)19(4)20student learning and trauma-informed responsive21instruction,22d.23of students, the capacity of students to learn and the	14			prevention of problematic behaviors, teaching
17and evaluating the effect of classroom management18on student outcomes, and19(4)the identification and impact of trauma on20student learning and trauma-informed responsive21instruction,22d.require teacher candidates to study the individuality23of students, the capacity of students to learn and the	15			appropriate behaviors, reinforcing appropriate
18 on student outcomes, and 19 (4) 20 student learning and trauma-informed responsive 21 instruction, 22 d. 23 of students, the capacity of students to learn and the	16			behaviors, responding to problematic behaviors,
19 (4) the identification and impact of trauma on 20 student learning and trauma-informed responsive 21 instruction, 22 d. require teacher candidates to study the individuality 23 of students, the capacity of students to learn and the	17			and evaluating the effect of classroom management
20 student learning and trauma-informed responsive 21 instruction, 22 d. require teacher candidates to study the individuality 23 of students, the capacity of students to learn and the	18			on student outcomes, and
21 <u>instruction,</u> 22 <u>d.</u> require teacher candidates to study the individuality 23 of students, the capacity of students to learn and the	19		(4)	the identification and impact of trauma on
22 <u>d.</u> require teacher candidates to study the individuality 23 of students, the capacity of students to learn and the	20			student learning and trauma-informed responsive
23 of students, the capacity of students to learn and the	21			instruction,
	22	<u>d.</u>	requ	ire teacher candidates to study the individuality
24 process of learning,	23		of s	tudents, the capacity of students to learn and the
	24		proc	ess of learning,

- 1d. e.integrate curriculum from other disciplines with the2education curriculum,
- 3 e. <u>f.</u> require teacher candidates to have training
 4 experiences and personal contact with parents,
 5 guardians or custodians of school-age children,
- 6 <u>f. g.</u> require teacher candidates to have community
 7 involvement experience,
- 8 g. h. structure courses so as to require teamwork
 9 activities, and
- 10h. i.require teacher candidates to study, in existing11coursework, substance abuse symptoms identification12and prevention, mental illness symptoms identification13and mental health issues, classroom management skills,14trauma-informed responsive instruction and classroom

safety and discipline techniques; and

16 3. The Commission for Educational Quality and Accountability 17 shall not require more than a four-year program of one hundred 18 twenty-four (124) semester hours to complete a teacher education 19 degree.

B. It is the intent of the Legislature that institutions of
higher education which offer teacher education programs hold such
programs accountable for meeting the certification competencies
approved by the State Board of Education. It is the intent of the
Legislature that the teacher education programs incorporate a

ENGR. H. B. NO. 1773

15

Page 5

1 curriculum to achieve the competency-based system and include 2 integration of the teacher preparation curricula with the arts and sciences departments curricula. Each institution of higher 3 4 education which seeks accreditation or approval for its teacher education program shall develop an institution plan which follows 5 the State Board of Education competencies for certification. 6 In 7 developing such institution plans, the higher education institution shall establish a process which seeks information and input from 8 9 teacher preparation faculty, faculty from arts and sciences and 10 other programs and disciplines which are appropriate, students 11 within the teacher education program, teachers, administrators, 12 parents, guardians or custodians of students and business and 13 community leaders. Each institution shall report annually to the 14 Commission for Educational Quality and Accountability the procedures 15 used to inform the public regarding the institution's teacher 16 education program and the manner through which public input is 17 solicited and received. The institution's plan shall be accessible 18 to any interested party under the Oklahoma Open Records Act. No 19 institution of higher education's teacher education program shall be 20 approved by the Commission unless the institution plan has been 21 approved by that institution's governing board. The Oklahoma State 22 Regents for Higher Education may facilitate the development of 23 institution plans to assist institutions of higher education. 24 SECTION 2. This act shall become effective November 1, 2021.
