Research Analysis

The committee substitute for HB 1086 creates a new law in which a guardian is able to petition a court to transfer or convey ward-owned property deemed a resource by federal or state authority into a protective arrangement. A protective arrangement shall not modify any state or federal authorized rules regarding exemption or transfer of assets or resources for determination of Medicaid or Social Security eligibility and is not considered a sale of property. Additionally, a court order authorizing a protective arrangement will not have any impact on the protective arrangement's consideration in the actual Medicaid eligibility determination decision.
