**Bill Analysis**

SB 131 authorizes facilities without a pharmacy license to dispense or distribute dialysate or peritoneal dialysis devices to patients with end-stage renal disease provided certain conditions are met. The dialysate must be comprised of dextrose or icodextrin, approved by the United States Food and Drug Administration, delivered and held in its original packaging, lawfully held by a manufacturer or agent properly licensed by the Oklahoma State Board of Pharmacy, delivered only upon receipt of a physician's prescription by a licensed pharmacy, and delivered directly to the patient or a health care provider.
