Bill Analysis

SB 573 provides for the condemnation of any facility of an electric public utility by a municipality or public trust to have the effect of granting written, mutual consent to such municipal corporation or public trust thereof to furnish retail electric service to an electric consuming facility. Additionally, the measure states that any public utility that owns or operates electrical distribution facilities within the boundaries of a municipality shall allow the municipal utility or public trust. The measure further provides for a 2% tax on gross sales beginning tax year 2022 on any provider of wholesale sale of electric power to municipal corporations if said providers were not in operation prior to July 1, 2021.
