Research Analysis

HB 2513, as introduced, directs the State Department of Education (SDE) to create a "Handle with Care Program" in coordination with the Oklahoma State Bureau of Investigation, as funds become available. The agencies are required to create a hotline, or other method of communication, allowing law enforcement officers to notify the program when a child is exposed to a traumatic event. If the child attends a public school, Handle with Care employees will notify a designated employee at the school district the child attends. The SDE is required to create a training for the program.
