

BILL SUMMARY
1st Session of the 59th Legislature

Bill No.:	HB 2674
Version:	INT
Request Number:	6018
Author:	Rep. Baker
Date:	2/27/2023
Impact:	No Impact

Research Analysis

HB 2674, as introduced, requires the subject matter standards for computer science to include an emphasis on computing systems, networks and the Internet, data and analysis, algorithms and programming, and the impacts of computing. The measure allows classes in technology, engineering, aerospace, or aviation to fulfill computer science graduation requirements.

Lastly, the measure updates the requirements of the State Department of Education's annual report regarding computer science education.

Prepared By: Emily Byrne

Fiscal Analysis

As written, the measure is not anticipated to result in a negative fiscal impact on the state budget or appropriations.

Prepared By: Cole Stout, House Fiscal Staff

Other Considerations

None.
