Research Analysis

The committee substitute to SB 724 adds county roads to the types of roads in which obstruction of the right-of-way or street by any gasoline pump, driveway canopy, building, sign, fence, post, or any structure on or overhanging is prohibited. Facilities operated by a public utility or companies engaged in oil and gas operations are exempt from this prohibition. The committee substitute also restores the title.

Fiscal Analysis

The committee substitute for SB 724 adds the rights-of-way acquired by a county to be held inviolate for county purposes, and restricts the construction of various structures on or overhanging any right-of-way on a county road. Public utilities and companies engaged in oil and gas operations are exempt from the provisions of this measure. As this measure only references county rights-of-way, this measure has no direct fiscal or revenue considerations for the state.
