Bill Analysis

HB 2673 modifies the minimum salary schedule for certified school personnel. The measure clarifies that if a district does not receive Foundation Aid or does not receive Salary Incentive Aid, the State Department of Education will allocate funds provided for the financial support of public schools to such districts in order to implement the teacher salary increases. The measure directs the salary increase to be calculated based on the certified personnel employed by the district using the degree, certification, and years of experience currently held.
