Bill Analysis

SB 496 directs the Oklahoma Department of Agriculture, Food, and Forestry to maintain a telephone number connected to a hotline administered and monitored by the Oklahoma Department of Agriculture, Food, and Forestry for any damaged state-owned fencing or state-owned fencing otherwise in disrepair on its website. The measure requires the hotline to prompt callers to provide the approximate location of and the date in which the caller first viewed the damaged or otherwise in disrepair state-owned fencing. The Department shall identify the appropriate state agency or institution responsible for the fence within a week of receiving the complaint and transmit electronically and via mail to the state agency or institution a notification providing the approximate location of and the date in which the caller first viewed the damage or disrepair. Upon receiving the notice, the agency must act within 30 days to repair the fencing.
