Bill Analysis

SB 929 requires medical practitioners administering a vaccine to inform the patient of all ingredients in the vaccine and whether the vaccine manufacturer used fetal cell lines in the research or production of the vaccine prior to the administration of the vaccine. The licensed practitioner shall obtain the informed consent of the patient prior to administration of the vaccine. If the licensing board of the practitioner finds that the practitioner violated the provisions of this measure, the board shall revoke the license of the practitioner and fine the practitioner \$100,000.00 per occurrence.
