Fiscal Analysis

HB 1419 modifies the definition of a "street-legal utility vehicle" by increasing the maintained speed capabilities requirement from forty five (45) to fifty (50) miles per hour. The measure also authorizes the use of such vehicles on certain U.S. Highways if properly registered as motor vehicles. The measure does not mandate any action or expenditure by a state agency. Therefore, the measure is not anticipated to have a direct fiscal impact on the state budget or appropriations.
