

Bill Summary
1st Session of the 60th Legislature

Bill No.:	SB 1008
Version:	INT
Request No.	591
Author:	Sen. Murdock
Date:	01/24/2025

Bill Analysis

SB 1008 provides that surface water withdrawal permits shall be conditioned upon the measurement of subsurface soil moisture content. The measure directs the Oklahoma Water Resources Board to develop standards for the regular assessment of such content and to develop moisture thresholds. The measure requires permittees to conduct regular soil moisture assessments.
