Bill Analysis

SB 203 directs the Oklahoma Health Care Authority to provide Medicaid reimbursements to hospitals at 100% of the statewide average nursing facility per diem rate for the treatment of individuals enrolled in the state Medicaid program, was admitted as an in-patient, no longer requires acute inpatient care and discharge planning, requires nursing facility level of care upon discharge, and is unable to be transferred to a nursing facility due to a shortage. Such reimbursement shall be subject to federal approval.
