

**BILL SUMMARY**  
1<sup>st</sup> Session of the 60<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>HB1117</b>
<b>Version:</b>	<b>INT</b>
<b>Request Number:</b>	<b>11767</b>
<b>Author:</b>	<b>Rep. Stewart</b>
<b>Date:</b>	<b>2/10/2025</b>
<b>Impact:</b>	<b>\$0</b>

**Research Analysis**

HB 1117, as introduced, provides that in vitro fertilization or human embryo transfer may be performed in the state by authorized persons and with consent in writing of the husband and wife desiring the utilization of the technique for the purpose of conceiving a child or children. This consent must be executed and acknowledged by both husband and wife and the person who will perform the technique. Any child or children born in this method will be considered, for all legal intents and purposes, the same as a naturally conceived child of the husband and wife. Human embryos created during invitro fertilization will be considered the patient's property. The measure provides that there will be no limit to have many human embryos can be created, frozen, or implanted in a single in vitro fertilization cycle.

Prepared By: Suzie Nahach

**Fiscal Analysis**

HB 1117 allows licensed medical professionals to perform in vitro fertilization (IVF) or human embryo transfer, provided written consent is obtained from both the husband and wife and the medical professional performing the technique. In its current form, HB 1117 is not anticipated to have a direct fiscal impact on the state budget or appropriations.

Prepared By: Alexandra Ladner, House Fiscal Staff

**Other Considerations**

None.
