

**Bill Summary**  
1<sup>st</sup> Session of the 60<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>SB 1026</b>
<b>Version:</b>	<b>INT</b>
<b>Request No.</b>	<b>96</b>
<b>Author:</b>	<b>Sen. Bergstrom</b>
<b>Date:</b>	<b>01/24/2025</b>

**Bill Analysis**

SB 1026 establishes setback requirements for wind energy facilities. The measure requires the base of the tower to be located 2,000 feet away or 5 times the length of a blade from the tower from the nearest residential building or nonparticipating property. The measure requires such facilities to not exceed 40 decibels at the property line of a nonparticipating property.
