**Bill Analysis**

SB 515 requires health providers to accept full payment for a health care service in lieu of submitting a claim to the enrollee's health benefit plan. The measure requires such providers to consider discounted cash price for services rendered as full payment. Additionally, the health benefit plan of an enrollee who makes such a payment shall receive credit toward the enrollee's deductible and annual maximum out-of-pocket expense if the service is a medically necessary covered service.
