FY'26 Impact:	\$1,160,000
Full Year Impact:	\$1,100,000

**Bill Summary and
Fiscal Analysis:**

SB 352 would require electric transmission facilities to obtain a certificate of authority from the Corporation Commission prior to exercising any right of eminent domain to construct or expand a transmission facility rated greater than 300 kilovolts. The Corporation Commission states there would be a need for additional experts, counsel and judges in order to adjudicate cases. The estimated fiscal impact to implement the provisions consists of \$1,100,000 in anticipated recurring costs and \$60,000 in one-time costs.
